

Annual Reshuffle of the Nikkei Asia300 Investable Index Constituents

On June 1, Nikkei Inc. will reshuffle the constituents of the Nikkei Asia300 Investable Index, which is comprised of 300 listed companies in growing Asian economy. The index is designed to be used for financial products. Based on numerical data such as the market capitalization, trading value, sales growth and free float ratio, the periodic review is carried out every June.

As a result of this reshuffle, 16 issues will be added and 15 issues will be deleted. Due to a deletion of Glow Energy last June, the number of the constituents as of May 22 is 299. The number comes back to 300 as a result of the reshuffle.
