

New functions added to “Nikkei Indexes” website

March 27, 2024 – Nikkei Inc. has added the following new functions to the official index website, “Nikkei Indexes”.

(1) Index Stock Finder

The “Index Stock Finder” provides the function to find the indexes which include a specific stock by reverse lookup. By specifying ticker or company name of the stock in the search box, you can list the indexes in which the stock is included.

(2) Daily Summary for the Nikkei 225 Climate Change 1.5°C Target Index

The Nikkei 225 Climate Change 1.5°C Target Index has been added to the "Daily Summary" menu. In addition to viewing the daily open, high, low and closing values and intraday charts in the past, you can also refer to the top 10 weighted stocks of the day, as well as the weights and contributions to the daily changes of each sector.
