

## Revision of the Guidebook for the “Nikkei Asia300” Index

On June 11, Nikkei revises the Index Guidebook for the Nikkei Asia300 Index. Where currency conversion is necessary such as USD based index calculation, spot (real time) exchange rates at the time of the index calculation are to be used instead of the fixed rates at 16:00 London time of the previous day.

Also, the index calculation agent is changed from Singapore Exchange to S&P Dow Jones Indices. Please refer to the revised Index Guidebook for more detail.
