

■2020年5月以降の「配当利回り」、「株価収益率(PER)」の値について

新型コロナウイルスの感染拡大で業績予想の開示を見送る企業が相次ぎ、日経予想の作成に時間がかかっています。予想を作成できない間はシステム上、利益や配当をゼロとして投資指標を算出しているため、配当利回りや株価収益率(PER)が異常値になっています。

■Regarding the value of "Dividend Yield" and "P/E" after May 2020

Due to the outbreak of COVID-19, many companies have postponed the disclosure of earning forecast by their own for the current fiscal term and Nikkei is taking a lot of time to make the earning forecast at this moment. During this term, the values of "Dividend Yield" and "P/E" have become outliers, because the estimated values of the EPS or DPS for such companies are treated as 0 (Zero) in the calculation of the indicators.
