Regarding the Stock Split of MUFG

September 7, 2007

Mitsubishi UFJ Financial Group, Inc. (MUFG, 8306), a Nikkei Stock Average constituent, is planning a stock split of 1 to 1,000. From October 1, the first trading day after the effective date of the split, Nikkei Inc. and Nikkei Digital Media Inc. will change the presumed par value of MUFG from 50,000 yen to 50 yen in line with its ratio of split. This means that the price of MUFG in Nikkei Average will be the same as its market price.

This is in accordance with the announcement of June 7, 2005 regarding the “Reverse Splits in the Nikkei Average Constituents” to cope with large scale stock splits and reverse splits.

The same will be applied to the Nikkei 500 Stock Average (Nikkei 500).
