

Nikkei to publish Nikkei High Dividend Yield 50 component weights

Nikkei Inc. has published the component weights of the Nikkei 225 High Dividend Yield Stock 50 Index as of on June 30 when the component change on the annual review became effective. The component weights will be updated at the end of every month.

The figures are provided at the Nikkei High Divided Yield 50 page of the Nikkei index website. The web page publishes the index level data (updated daily and monthly) and the index-based dividend yield as well as the component names and the methodology describing the component selection rule etc. The index Factsheet has been updated in time with the index component weight publication this time.
