Nikkei Inc. conducted the annual review of the Nikkei 225 Domestic Exposure 50 Index and the Nikkei 225 Global Exposure 50 Index and make the following changes accordingly.

[Nikkei 225 Domestic Exposure 50 Index]

[Nikkei 225 Global Exposure 50 Index]

	6981	Murata Manufacturing Co., Ltd.	6471	NSK Ltd.
	7974	Nintendo Co., Ltd.	6971	Kyocera Corp.

For the Nikkei Domestic Exposure 50, two constituents are added because of their low overseas sales ratios among candidates. At the same time, DeNA whose overseas sales ratio went up is added to the index. The number of constituents is now 49 after NTT DOCOMO was deleted in December 2020. The number returns to 50 through this constituents reshuffle. For the Nikkei Global Exposure 50, Nexon, Murata Manufacturing and Nintendo which have high overseas sales ratios are added. Three constituents with low overseas sales ratios are deleted.

The constituents of both indexes are chosen from the Nikkei 225 constituents by overseas sales ratio. The lowest 50 constitute "Domestic Exposure 50", while the highest 50 constitute "Global Exposure 50". These indexes were launched in April 2019 and announced daily.
