

## Real Time Calculation of Nikkei Climate 1.5°C Target Index

Nikkei Inc. will start the real-time calculation (updated every 5 seconds) of the Nikkei 225 Climate Change 1.5°C Target Index from November 14.

The Nikkei Climate 1.5°C Target Index has been calculated and published on an end-of-day basis since May 30, 2022. The index is based on the Nikkei 225 where the weights of the constituents are adjusted so that its overall Green House Gas (GHG) emissions of the index is 50% lower than that of the Nikkei 225, and will be further decreased by 7% per year. The index, which complies with the minimum standards for EU Paris-aligned Benchmarks (PAB) was developed in association with US headquartered Wilshire.
