(Note) The number of years of consecutive dividend growth are counted based on the fiscal year, counting an irregular accounting period with more or less than 12 months also a year. Sorted by actual dividend yield in descending order in cases where multiple components have the same number of consecutive dividend growth. Dividends only after the listing is covered and they are adjusted considering splits and consolidations of stocks. Stocks with low liquidity and small market capitalization are not eligible for the index. Stocks with * after the name are newly added.
