

## April Review of the Nikkei Climate PAB Index Not Conducted

April 24, 2026 – Nikkei Inc. has decided not to conduct the scheduled semi-annual review of the Nikkei 225 Climate Change 1.5°C Target Index (EU PAB) (Nikkei Climate PAB Index), which was originally planned for the end of April 2026.

The Nikkei Climate PAB Index is reviewed twice a year, at the end of April and October. Since Wilshire Indexes, the UK-based firm that jointly operates the index, ceased its operations at the end of February this year, the necessary data for the April review has not been obtained as of today, leading to the decision to not to conduct this review. Note that this treatment will not affect the calculation of the index.
